

Trim your blocks to match
My lace was 2 inches wide
so I allowed an inch spacing around the Blocks
Then I zigzagged the blocks together
Using a number 5 width

Turn your blocks over and using a ribbed ribbon
or satin ribbon or Bias tape
about 3/8 or 1/2 inch wide and cover the
Zigzags centering the ribbon over the zigzags

Now turn back over and sew your lace on top
Over the zigzag using the stitch lines as guides
Do the same for all rows
Then repeat for sewing the rows together

To finish it off I bound it
then added a border of lace.
using the block sewing line as guide

Block Pictures

**This quilt was done Quilt as you go method.
it can be done like a rag quilt.
Both look great**

**Here is how I did this quilt.
Lace can be bought or made. your choice
not included in the set**

**Buy your lace first.
it will determine how
much you trim on the
quilt Blocks,
I made lace 2 inches
wide for the center
insertions.**

**So I trimmed my blocks
7/8 inch along the last
sewing line of the block.
I wanted the lace to
over lap the sewing line
Squaring up all the
blocks to match**

**Zigzag your blocks together, through all 3 layers,
I used a loose 5mm wide zigzag,
Use what suites you
do rows across first**

**On the back using bias
tape or ribbon, satin or
ribbed.
sew on the back of the
blocks covering the
zigzag
I made bias from the
same backing fabric**

Now sew your lace on to the front of the block rows

**Once all rows are completed, then repeat the steps for putting the rows together
I then bound the quilt and added matching lace to the outside of the quilt
See picture at the top**
